Sir:

In reply to the Examiner's answer dated October 23, 2006, Appellants make the following reply.

In responding to Appellants' argument that the Examiner is improperly asserting that the flanges (50,52) are end walls, the Examiner argues that Appellant's are attempting to read limitations from the specification into the claims. However, contrary to this assertion, Appellants are simply interpreting the plain meaning of the term "end walls" in light of the
